40. (Amended) A system for creating a list of selected titles comprising:  
a source of works which may include, at least in part, an audio component;  
a visual output device;  
circuitry, coupled to the source and the output device, for building an inventory  
list of works and for creating a displayable list of works of at least some of the inventory on the  
output device wherein the circuitry includes instructions for selecting works to be included in the  
displayable list in accordance with a selected characteristic, and, for executing a plurality of such  
selected works.
41. (Amended) A system as in claim 40 which includes executable instructions for  
selecting works to be included in the displayable list in accordance with one of a selected audio  
characteristic, a selected video characteristic, or a selected popularity indicium.
